A fundraiser to support the AASP-MN Automotive Education Fund…

Enhancing opportunities in automotive education through scholarships, program support and partnerships.

Start your engines!
Organize your team today. (This event would make a great employee outing!) The competition will consist of up to 12 teams each night with 5 members each and a crew chief at ProKart, and 10 teams with 5 members each and a crew chief at MB2.

These ain't your daddy's go karts!
ProKart's new fleet of RiMO EVO6 Race Karts are run on power-boosting, low-emission, renewable methanol for consistency and performance. MB2 Racing is a new facility featuring all-electric karts that reach speeds of up to 45 miles per hour. State-of-the-art computerized timing equipment adds a competitive edge to the total race experience.

All proceeds will benefit the AASP-MN Automotive Education Fund
When the final checkered flag waves and the adrenaline subsides, our goal is to raise over $11,000 over the three nights. The majority of that money is earmarked to fund scholarships for students enrolled in a two-year, NATEF-certified automotive program (collision or mechanical) in the state of Minnesota. Scholarship awards will be $1000 per student.
