

## Common Paint Booth Exposures and Requirements

*Presented by Troy Hawkins, Sr. Risk Control Technical Consultant, United Fire Group*

**Wednesday, May 11, 2022**

**1:00 - 1:45 p.m. Central Time**

**Microsoft Teams Meeting**

United Fire Group (UFG) Insurance offers a great value-added service with its commercial lines policies. Access to a Risk Control Department that is stocked with highly knowledgeable Risk Control Consultants, with varying Safety and Risk Management backgrounds and can help protect your business. In this online webinar, a Sr. Risk Control Technical Consultant will explain common paint booth exposures, as well as controls and requirements that should be in place to protect your business

This session will cover:

- Brief overview of what UFG's Risk Control is & our consultants
- Common paint booth exposures and requirements
- What UFG programs and services are available and can help you!
- Q & A (15 minutes)

**About the presenter:**

*UFG Insurance welcomed Troy Hawkins in February 2011. In his current position, Troy focuses on providing risk management solutions and risk control products to our valued internal and external partners through best-in-class service.*

*Troy's career in risk management started in 2000 and has focused on a wide range of risks from heavy trucking to food products and manufacturing to small contractors.*

*In his current role, Troy travels across Kansas discussing safety and loss control with business owners, developing reports for underwriting and assisting customers with safety inspections at facilities and job sites.*

*Troy attended Oklahoma State in Stillwater, Oklahoma, focusing on fire protection safety technology.*
