

## All AASP-MN Meetings & Events Cancelled Until Further Notice

As a partner to you and your business, AASP-MN continues to closely monitor the impacts of Coronavirus (COVID-19). With the number of cases escalating locally and across the U.S., we wanted to provide an update on our operations and share information that can help you navigate through the current uncertainty.

Fortunately, the AASP-MN staff is set up to work virtually, so association business will continue as usual and will not be affected by social distancing. We will continue to serve you and conduct our business on a remote basis through the end of March. As usual, office hours are 8 a.m. - 4:30 p.m., Monday through Friday.

We are also taking the prudent and necessary measures to ensure that the health of our members is not compromised. As such, ***we are cancelling all scheduled committee meetings and other events, including the Annual Meeting & Leadership Conference on April 23.*** We cannot in good conscience proceed with a large gathering that could potentially put our members at risk of exposure.

Any registration fees that have been received will be applied to the rescheduled event, so stay tuned for future information. If you've already booked a room at the Delta Hotels by Marriott Minneapolis Northeast, you will have to call 612-331-1900 and cancel directly, as the cancellation must be initiated by the party who booked the room. No cancellation charges will apply.

Hopefully, this crisis will be behind us quickly and we can resume normal operations and reschedule all events. In the meantime, for reliable information and updates about the virus and how your company can best respond, [click here](#) to see a bulletin from our knowledgeable partners at Complete Health Environmental & Safety Services (CHESS). It includes links to OSHA resources and other useful information. CHESS has also developed information specific to those working on vehicles, which you can read [here](#).

Thank you for your continued understanding and support as we all try to navigate this rapidly changing situation.

And most importantly, please stay safe and healthy.
